

Information and advice on GIZ GmbH international health insurance

Enclosed you will find the tariff documents, the general terms and conditions of insurance and the application for foreign health insurance for the group contract with HALLESCHE Krankenversicherung (health insurance). Insurance cover is provided for all integrated experts who stay abroad for more than 91 days on behalf of CIM. This also applies to (spouses) partners and children.

Within the framework of the group contract, international health insurance and daily sickness allowance insurance (EKT) can be covered. Since the continued payment of wages in the event of illness is regulated differently by individual employers, a corresponding individual amount can be concluded. The daily sickness allowance may not be higher than the monthly net income (incl. CIM allowance) divided by 30. The tariff can only be taken out for the main insured person. This is the tariff EKT/group. The premiums and benefits for this can be found in the tariff overview and the premium rates table EKT/group. If you take out tariff level EKT43, HALLESCHE will pay the daily allowance for up to 26 weeks.

Please note your domestic and foreign address on the registration form. If you do not yet know your address abroad, please enter at least the country of assignment and submit the exact address later.

Your support during the term of the group contract is provided by DR-WALTER Versicherungsmakler GmbH, which you can contact in all contractual matters. Your contact is the DR-WALTER-GIZ Team: Tel.: +49 2247 9194-987 or e-mail giz@dr-walter.com

The group contract is only valid for the duration of your international contract with CIM. In the event of termination of this contractual relationship, definitive return to Germany / home country or unknown date of re-entry, this must be reported immediately by the employee.

If you terminate your international CIM contract, you generally have the option of taking out continued insurance and continuing your health insurance with comparable tariffs (domestic tariffs, foreign tariffs, supplementary health insurance for persons with statutory health insurance).

A risk assessment is necessary for the preparation of a continued insurance offer if no assessment of health conditions was carried out when registering for the CIM foreign group contract. This does not result in an obligation to continue insurance with HALLESCHE Krankenversicherung (health insurance) or additional costs for you.

If required, you can also obtain offers for continued insurance after the end of your assignment abroad for CIM from DR-WALTER Versicherungsmakler GmbH.

If applicable, please fully complete the enclosed application form and sign it manually together with the declaration on health conditions and return it to giz@dr-walter.com.

DR-WALTER Versicherungsmakler GmbH will be happy to answer any further questions you may have. You can also obtain all documents under this link: giz-vp.de
