

## Information and advice on GIZ GmbH international health insurance

Please find enclosed the tariff documents, general information material and the application form for health insurance abroad for the group contract with HALLESCHE Krankenversicherung (health insurance). Insurance cover is granted for all international experts / national employees who stay abroad for more than 91 days on behalf of GIZ. This also applies to GIZ-recognised accompanying partners (MAP) and children.

Within the framework of the group contract, the international health insurance and a daily sickness allowance insurance (EKT) can be covered. This is the tariff EKT/group. The premiums and benefits for this can be found in the tariff overview and the premium rates table EKT/group. The daily sickness allowance may not be higher than the monthly net income divided by 30 and can only be taken out for the main insured person.

If you take out tariff level EKT43, HALLESCHE will pay the daily allowance for up to 26 weeks.

Please note your domestic and international address on the registration form. If you do not yet know your address abroad, please enter the address of the GIZ office including the country of assignment and submit the exact address later.

Your support during the term of the group contract is provided by DR-WALTER Versicherungsmakler GmbH, which you can contact in all contractual matters. Your contact is the DR-WALTER-GIZ Team: Tel.: +49 2247 9194-987 or e-mail [giz@dr-walter.com](mailto:giz@dr-walter.com)

The group contract is only valid for the duration of your international contract with GIZ. In the event of termination of this contractual relationship, final return to Germany / home country or unknown date of re-entry, this must be reported immediately by the employee.

Upon termination of your international GIZ contract, you generally have the option to take out continued insurance and to continue your health insurance with comparable rates (domestic rates, international rates, supplementary health insurance for persons with statutory health insurance).

A risk assessment is necessary for the preparation of a continued insurance offer if no health assessment was carried out when registering for the international GIZ group contract. This does not result in an obligation to continue insurance with HALLESCHE Krankenversicherung (health insurance) or additional costs for you.

If required, you can also obtain offers for continued insurance after the end of your assignment abroad for the GIZ from DR-WALTER Versicherungsmakler GmbH.

**If applicable, please fully complete the enclosed application form and sign it manually together with the declaration on health conditions and return it to [giz@dr-walter.com](mailto:giz@dr-walter.com).**

DR-WALTER Versicherungsmakler GmbH will be happy to answer any further questions you may have. You can also obtain all documents under this link: [giz-vp.de](https://www.giz-vp.de)
